

Condensed Financial Statements

As at 30 June 2021

CHAIRMAN'S STATEMENT

National Enterprises Limited's (NEL) total comprehensive profit of \$18.1M for the three-month period ended June 30, 2021 represents an 18% increase over the \$15.7M for the comparative period in 2020. This increase was driven largely by Dividend Income of \$1.4M - an increase of over 200% from \$446K in 2020, and improved fair value of assets in NEL's portfolio equity investments.

While the domestic financial sector continues to demonstrate resilience as we continue our efforts to deal with the economic fallout of the COVID-19 pandemic, there are still challenges of some volatility in energy markets and achieving projected returns on investment in the local capital markets.

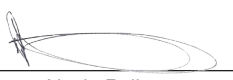

We will continue to monitor and inform our shareholders of measures to protect and preserve shareholder value. In building a platform for diversification and long-term share appreciation, we go forward with the resolve to add value and balance in our portfolio of investee companies for the mid and long-term.
