National Enterprises Limited

Statement of Management's Responsibilities For the year ended September 30, 2023

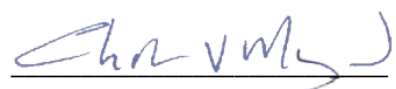

Management is responsible for the following:

- Preparing and fairly presenting the accompanying financial statements of National Enterprises Limited (the "Company"), which comprise the statement of financial position as at September 30, 2023; the statements of comprehensive income, changes in equity and cash flows for the year ended September 30, 2023, and a summary of significant accounting policies and other explanatory information;
- Ensuring that the Company keeps proper accounting records;
- Selecting appropriate accounting policies and applying them in a consistent manner;
- Implementing, monitoring and evaluating the system of internal control that assures security of the Company's assets, detection/prevention of fraud, and the achievement of Company's operational efficiencies;
- Ensuring that the system of internal control operating effectively during the reporting period;
- Producing reliable financial reporting that comply with laws and regulations; and
- Using reasonable and prudent judgement in the determination of estimates.

In preparing these financial statements, management utilized International Financial Reporting Standards, as issued by the International Accounting Standards Board and adopted by the Institute of Chartered Accountants of Trinidad and Tobago. Where International Financial Reporting Standards presented alternative accounting treatments, management chose those considered most appropriate in the circumstances.

Nothing has come to the attention of management to indicate that the Company will not remain a going concern for the next twelve months from the reporting date; or up to the date the accompanying financial statements have been authorized for issue, if later.

Management affirms that it has carried out its responsibilities as outlined above.

Independent Auditor's Report

To the Shareholders of
National Enterprises Limited

Opinion

We have audited the financial statements of National Enterprises Limited (the "Company"), which comprise the statement of financial position as at September 30, 2023, and the related statements of comprehensive income, changes in equity and cash flows for the year then ended and the accompanying notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at September 30, 2023, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRS").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* ("IESBA Code") and we have fulfilled our ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements for the year ended September 30, 2023. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Fair value of investments in subsidiaries, joint ventures and associates

Key Audit Matter

As at September 30, 2023, the Company held significant investments in subsidiaries, associates and joint ventures which were carried at a total fair value of \$2.60 billion (2022: 3.43 billion) as disclosed in notes 6 and 7 to the financial statements.

96% or \$2.51 billion (2022: 97% or \$3.33 billion) of the aforementioned balance represents the carrying value of unquoted investments for which no published prices are available, and which have little or no observable inputs.

With the assistance of independent external valuers, the Company applied recognized valuation techniques such as the market approach, the income approach or the adjusted net asset value method, that are consistent with generally accepted standards of valuation, to determine the fair value of these investments.

The fair value assessment requires significant judgement by management, in particular with regard to key input factors such as earnings multiples, liquidity discounts, discount rates or the selection of valuation multiples.

As this balance is significant to the financial statements, we consider the valuation of these investments to be a significant key audit matter.

Independent Auditor's Report (continued)

Key Audit Matters (continued)

1. Fair value of investments in subsidiaries, joint ventures and associates (continued)

Audit Response

Our procedures in relation to the valuation of these investments at the reporting date included the following:

- Evaluating the independent professional valuator's competence, capabilities, and objectivity.
- Assessing the acceptability and consistency of the approaches and methodologies used.
- Assessing the reasonableness of the assumptions used and applications thereof.
- Evaluating the suitability of the choice of models used for the various entities, including consistency of application across entities and prior reporting periods.
- Verifying the model inputs to source data on a sample basis.
- Assessing the application and quantification of premiums and discounts, including discounts for lack of marketability.
- Verifying the mathematical accuracy of the valuation computations.
- Performing "stand-back" reviews, including discussions and enquiries with the valuer, to ensure that the final fair value reflected the assimilation of facts presented as inputs and assumptions to the valuation models.

We found the fair value of investment in subsidiaries, joint ventures and associates to be appropriate.

2. Applicability of IFRS 10 consolidation exemption

Key Audit Matter

As at September 30, 2023, the Company held investments in three subsidiaries whose financial statements were not consolidated with those of the Company in accordance with the exemption requirements of IFRS 10. Refer to Note 4.2.

IFRS 10 does not require an investment entity to consolidate its subsidiaries and requires the entity to measure the investments at fair value through profit or loss.

The Company is required to make significant judgements and assumptions in determining whether it meets the definition of an investment entity in accordance with IFRS 10.

Given that this is a matter of significant judgement which significantly affects the fair presentation of the financial statements, we consider it to be a significant key audit matter.

Audit Response

Our procedures in relation to assessing the applicability of the IFRS 10 consolidation exemption included the following:

- Revisiting and evaluating the IFRS 10 consolidation exemption criteria and requirements.
- Critically assessing management's assessment of the Company's qualification as an investment entity.
- Reviewing the completeness of the disclosures required by IFRS 12 for investment entities.
- Consulting with technical advisors on the interpretation of the relevant IFRS.

We found the applicability of the IFRS 10 consolidation exemption to be appropriate.

Independent Auditor's Report (continued)

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Independent Auditor's Report (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Riaz Ali.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

1. Incorporation and principal activities

National Enterprises Limited (the “Company”) was incorporated in Trinidad and Tobago and is controlled by the Minister of Finance (Corporation Sole). The Company was formed by the Government of the Republic of Trinidad and Tobago as part of a re-organisation exercise, to hold its shareholdings in selected state enterprises and facilitate a public offering on the Trinidad and Tobago Stock Exchange.

The Company’s initial portfolio of investments in National Flour Mills Limited (NFM), Telecommunications Services of Trinidad and Tobago (TSTT) and Trinidad Nitrogen Company Limited (TRINGEN) were transferred at their last audited net asset value by the Minister of Finance (Corporation Sole) on behalf of the Government in exchange of 500,000,000 ordinary shares of no par value in the Company. All formation expenses were borne by the Ministry of Finance. Subsequently, on December 14, 2001, the Company acquired a 20% shareholding in NGC NGL Company Limited (NGC NGL) financed by the issue of an additional 50,511,540 shares and on December 8, 2003, the Company acquired a 37.84% shareholding in NGC Trinidad and Tobago LNG Limited (NGCLNG) financed by the issue of an additional 49,489,101 shares.

The Company’s principal business activity is to purchase investments, primarily for long-term capital growth and investments.

The Company has a wholly owned subsidiary, NEL Power Holdings Limited (NPHL). In December 2014, the Company entered into a joint venture arrangement, acquiring 33.33% of Pan West Engineers and Constructors LLC.

The principal business activities of the Company’s subsidiaries, associates and joint ventures are disclosed in Notes 6 and 7. The registered office of the Company is Level 15, Tower D, International Waterfront Centre, Wrightson Road, Port of Spain.

On July 27, 2021; the Board of Directors approved the change of the Company’s year end from March 31 to September 30 annually. The comparative information included in these financial statements have been prepared for the eighteen-month period ended September 30, 2022. Additional disclosure has been included in the notes to the financial statements for comparison purposes.

2. Summary of significant accounting policies

2.1 Basis of preparation

(a) Use of estimates

These financial statements have been prepared in accordance with International Financial Reporting Standards and International Accounting Standards as issued by the International Accounting Standards Board (IASB) and Interpretations (collectively IFRSs). The principal accounting policies adopted in the preparation of the financial statements are set out in this note. The policies have been consistently applied to all the years presented, unless otherwise stated. The historical cost basis is used, except for the measurement at fair value of financial instruments.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

2. Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

(b) *New standards, amendments and interpretations which are effective and have been adopted by the Company in the current year.*

The Company adopted the following amendments with a transition date of October 1, 2022. There were no significant changes made to these financial statements resulting from the adoption of these amendments.

- Conceptual Framework for Financial Reporting (Amendments to IFRS 3 Business Combinations (Effective January 1, 2022). The amendments introduce an exception to the general recognition requirement for liabilities and contingent liabilities acquired in a business combination that is within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets and IFRIC 12 Service Concession arrangements.
- Property, Plant and Equipment – Proceeds before Intended Use (Amendments to IAS 16, effective from January 1, 2022) The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the cost of producing those items, in profit or loss.
- Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37, effective January 1, 2022) The amendments specify that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).
- Amendments to IFRS 1, IFRS 9, IFRS 16 and IAS 41- Annual Improvements to IFRS Standards 2018-2020 (Effective January 1, 2022)

IFRS 1 - The amendment permits a subsidiary that applies paragraph D16(a) of IFRS 1 to measure cumulative translation differences using the amounts reported by its parent, based on the parent’s date of transition to IFRSs.

IFRS 9 - The amendment clarifies which fees an entity includes when it applies the ‘10 per cent’ test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognise a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other’s behalf.

(c) *Standards amendments and interpretations issued which are effective after October 1, 2022, and have been early adopted by the Company.*

The Company has not early adopted any new standards, interpretations or amendments.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

2. Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

(d) *Standards, amendments and interpretations issued which are effective and not relevant to the Company.*

- Amendments to IFRS 1, IFRS 9, IFRS 16 and IAS 41- Annual Improvements to IFRS Standards 2018-2020 (Effective January 1, 2022)

IFRS 16 - The amendment to Illustrative Example 13 accompanying IFRS 16 removes from the example the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives are illustrated in that example.

IAS 41 - The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique.

(e) *New standards, amendments and interpretations issued but not effective and not early adopted.*

The following new standards, interpretations and amendments, which have not been applied in these financial statements, will or may not have an effect on the Company's future financial statements in the period of initial application. In all cases the entity intends to apply these standards from application date as indicated in the note below.

- Disclosure of Accounting Policies (Amendment to IAS 1 and IFRS Practice Statement 2)

In February 2021, the IASB issued amendments to IAS 1, which change the disclosure requirements with respect to accounting policies from 'significant accounting policies' to 'material accounting policy information'. The amendments provide guidance on when accounting policy information is likely to be considered material. The amendments to IAS 1 are effective for annual reporting periods beginning on or after January 1, 2023, with earlier application permitted.

- Definition of Accounting Estimates (Amendment to IAS 8)

In February 2021, the IASB issued amendments to IAS 8, which added the definition of Accounting Estimates in IAS 8. The amendments also clarified that the effects of a change in an input or measurement technique are changes in accounting estimates, unless resulting from correction of prior period errors. The amendments are effective for annual reporting periods beginning on or after January 1, 2023.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

2. Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

(e) *New standards, amendments and interpretations issued but not effective and not early adopted (continued).*

- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)

In May 2021, the IASB issued amendments to IAS 12, which clarify whether the initial recognition exemption applies to certain transactions that result in both an asset and a liability being recognized simultaneously (e.g. a lease in the scope of IFRS 16). The amendments introduce an additional criterion for the initial recognition exemption under IAS 12.15, whereby the exemption does not apply to the initial recognition of an asset or liability which at the time of the transaction, gives rise to equal taxable and deductible temporary differences. The amendments are effective for annual reporting periods beginning on or after January 1, 2023.

- Lease Liability in a Sale and Leaseback (Amendment to IFRS 16)

The Amendments provide a requirement for the seller-lessee to determine 'lease payments' or 'revised lease payments' in a way that the seller-lessee would not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee. The amendments are effective for annual reporting periods beginning on or after January 1, 2024.

- Amendments to IAS 1 Presentation of Financial Statements—Classification of Liabilities as Current or Non-current

The amendments to IAS 1 published in January 2020 affect only the presentation of liabilities as current or non-current in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items.

The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period, and introduce a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The amendments are applied retrospectively for annual periods beginning on or after January 1, 2024, with early application permitted.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

2. Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

(e) *New standards, amendments and interpretations issued but not effective and not early adopted (continued).*

- Amendments to IAS 1 Presentation of Financial Statements—Non-current Liabilities with Covenants

If an entity's right to defer is subject to the entity complying with specified conditions, such conditions affect whether that right exists at the end of the reporting period, if the entity is required to comply with the condition on or before the end of the reporting period and not if the entity is required to comply with the conditions after the reporting period.

The amendments also provide clarification on the meaning of 'settlement' for the purpose of classifying a liability as current or non-current. The amendments are applied retrospectively for annual reporting periods beginning on or after January 1, 2024.

Other standards, amendments and interpretations to existing standards in issue but not yet effective are not considered to be relevant to the Company and have not been disclosed.

2.2 Foreign currency

(a) *Functional and presentational currency*

These financial statements are presented in Trinidad and Tobago dollars which is the Company's functional and presentation currency. An entity's functional currency is the currency of the primary economic environment in which the entity operates; normally, that is the currency of the environment in which an entity primarily generates and expends cash.

(b) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the statement of financial position date.

Foreign exchange gains and losses arising from the translation of financial assets and liabilities are included in the statement of comprehensive income.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

2. Summary of significant accounting policies (continued)

2.3 Property, plant and equipment

Items of property, plant and equipment are stated at historical cost or at its carrying value less related accumulated depreciation and impairment.

Depreciation is calculated on the straight-line basis at varying rates, which are estimated to be sufficient to write down the cost of the assets to residual value by the expiration of their useful lives.

Depreciation is charged on a pro-rata basis for assets purchased or sold during the year, except in cases of complete plants where depreciation is charged from commissioning of operations.

The rates used are as follows: -

	% per annum
Office furniture and fittings	10
Computer equipment	25
Leasehold improvements	10
Office equipment	25
Computer software	25
Motor vehicles	25

The assets' residual values and useful lives are reviewed at each year-end date, and adjusted as appropriate. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within the "Gain/Loss on Disposal" account in the statement of comprehensive income.

2.4 Financial assets and financial liabilities

Financial assets and financial liabilities are recognised in the Company's statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables that do not have a significant financing component which are measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

2. Summary of significant accounting policies (continued)

2.4 Financial assets and financial liabilities (continued)

Classification and subsequent measurement of financial assets

Financial assets are classified and subsequently measured by determining the Company's business model for managing financial assets and the contractual terms of the cashflows. These categories are:

1. Hold to collect or amortised cost
2. Hold to collect and sell or fair value through other comprehensive income (FVOCI)
3. Fair value through profit or loss (FVTPL)

The Company determines the classification of its financial assets on initial recognition and where allowed and appropriate, re-evaluates this designation at each financial year end. Reclassifications occur only when the business model for managing the asset changes. The entity is not permitted, however, to reclassify equity investments that have been irrevocably elected by management to be presented as FVOCI. Purchases and sales of investments are recognized on the date the Company commits to purchase or sell the asset (trade date). Investments are initially recognized at fair value plus or minus, in the case of financial assets not carried at fair value through profit or loss, transaction costs that are directly attributable to its acquisition.

Changes in the fair value of financial assets are recognised in profit or loss unless the financial asset is measured at FVOCI.

The Company recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at FVOCI and trade receivables. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

Impairment of financial assets

The Company recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at FVOCI and trade receivables. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Company always recognises lifetime expected credit losses (ECL) for trade receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

2. Summary of significant accounting policies (continued)

2.4 Financial assets and financial liabilities (continued)

Derecognition of financial assets

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss. In contrast, on derecognition of an investment in an equity instrument which the Company has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investment revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Subsequent measurement

All financial liabilities are measured subsequently at amortised cost using the effective interest method except for:

1. Designated as financial liabilities held at fair value through profit or loss.
2. Financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies.
3. Financial liabilities that are financial guarantee contracts.
4. Loans provided below-market interest rates.
5. Liabilities held for trading.
6. Contingent consideration recognised in a business combination to which IFRS 3 applies

Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

2. Summary of significant accounting policies (continued)

2.5 Investment in subsidiary

National Enterprises Limited owns 100% of NEL Power Holdings Limited and 51% of National Flour Mills (NFM) and Telecommunications Services of Trinidad and Tobago Limited (TSTT).

Although these companies are subsidiaries of NEL, its financial statements were not consolidated with those of the Company in accordance with the requirements of IFRS 10 - Consolidated Financial Statements. IFRS 10 states that a company classified as an investment entity shall not consolidate a subsidiary company and would measure the investment at fair value through the profit or loss.

An investment entity refers to an entity whose business purpose is to invest funds obtained from investors solely for returns from capital appreciation, investment income or both. An investment entity must also evaluate the performance of its investments on a fair value basis.

Where an entity meets the definition of an investment entity, it does not consolidate its subsidiaries, or apply IFRS 3 Business Combinations when it obtains control of another entity. NEL meets the definition of an investment entity in accordance with IFRS 10, therefore it has not consolidated its subsidiaries.

2.6 Investment in Associates and Joint Arrangements

National Enterprises Limited (“the Company” or “NEL”) owns 51% of Trinidad Nitrogen Co. Limited (“TRINGEN”). Although NEL is the majority shareholder in this entity, shareholder agreements with the minority shareholders establish joint control by the joint venture partners. Additionally, NEL owns 33.33% - Pan West Engineers Constructors, LLC. Both investments are accounted for in accordance with International Accounting Standard No. 31 - Interests in Joint Ventures.

NGC NGL Company Limited (“NGCNGL”) and NGC Trinidad and Tobago LNG Limited (“NGCLNG”) in which the Company has a 20% and 37.84% interest respectively, are associates and are accounted for in accordance with IAS 28 - Investments in Associates.

In both instances the method of accounting for these investments have been modified from the equity accounting method under IAS 31 - Interests in Joint Ventures and IAS 28 - Investments in Associates to fair value measurement in line with NEL’s presentation as an Investment Entity per Note 2.5.

2.7 Taxation

Current tax

The Company is subject to Corporation Tax, as it does not meet the criteria of an Investment Company as defined by the Corporation Tax Act, Section 6(3). Tax on profit or loss for the year comprises current tax and the change in deferred tax. Current tax comprises tax payable calculated on the basis of the taxable income for the year using the prevailing tax rate and any adjustment to tax payable for previous years.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

2. Summary of significant accounting policies (continued)

2.7 Taxation (continued)

Deferred tax

Deferred tax is calculated using the liability method whereby liabilities are recognised for temporary differences arising between the carrying amount of assets and liabilities in the statement of financial position and their tax basis, using tax rates that have been enacted or substantially enacted by the year-end date, which result in taxable amounts in future periods. Deferred tax assets relating to the carry forward of unused tax losses are recognised to the extent it is probable that sufficient taxable profits will be available against which the unused tax losses can be utilised.

2.8 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is more likely than not, that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are not recognized for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any other item included in the same class of obligations may be small. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognized in the statement of comprehensive income.

2.9 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable arising from activities in the ordinary course of activities. Interest income is recognised on the accruals basis and dividend income is accrued for when the right to receive payment is established.

2.10 Dividends

Dividend distribution to the Company's shareholders is recognized as a liability in the financial statements in the period in which the dividends are declared by the Company's directors.

2.11 Comparative information

Where necessary, comparatives have been adjusted to conform to changes in presentation in the current year.

3. Financial risk management

Financial risk factors

The Company's activities are primarily related to the use of financial instruments. The Company accepts funds from investors and earns interest by investing in equity investments.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

3. Financial risk management (continued)

The Company is exposed to interest rate risk, credit risk, liquidity risk, currency risk, operational risk, compliance risk and reputation risk arising from the financial instruments that it holds. The risk management policies employed by the Company to manage these risks are discussed below:

3.1 Interest rate risk -

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company is exposed to interest rate risk through the effect of fluctuations in the prevailing levels of interest rates on interest bearing financial assets and liabilities, including investments in bonds, loans, and other funding instruments.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

3. Financial risk management (continued)

3.1 Interest rate risk -(continued)

The exposure is managed through the matching of funding products with financial services and monitoring market conditions and yields.

The Company's exposure to interest rate risk is summarized in the table below, which analyses assets and liabilities at their carrying amounts categorized according to their maturity dates.

3.2 Credit risk

Credit risk arises when a failure by counter parties to discharge their obligations could reduce the amount of future cash inflows from financial assets on hand at the reporting date. The Company has policies in place to ensure that all amounts due are collected within specified credit period.

Cash balances are held with high credit quality financial intuitions and the Company has policies to limit the amount of exposure to any financial institution.

Expected credit loss (ECL) model

IFRS 9 outlines a “three stage” forward looking approach for impairment of financial assets based on changes in credit risk from initial recognition to the reporting date. The three-stage approach is as follows:

- i) Stage 1: The ECL of these financial instruments are measured at an amount equal to the portion of lifetime ECLs within the next 12 months.
- ii) Stage 2: These financial assets are considered to be underperforming and have been assessed as having a significant increase in credit risk. Impairment is based on lifetime ECL.
- iii) Stage 3: This stage refers to financial instruments that are credit impaired (non-performing assets) and are currently in default. Impairment is based on lifetime ECL.

ECL is valued at the probability of default (PD) by exposure at default (EAD) applied to the loss given default (LGD) of the instrument.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

3. Financial risk management (continued)

3.2 Credit Risk (continued)

Measuring ECL - Bond impairment

The following are the key considerations in the ECL methodology for NEL's investment in bonds:

- PDs are calculated using the cumulative number of defaults by instrument rating over the total number of bonds in issue. These are further adjusted to arrive at independent / unconditional probabilities.
- Forward looking PDs are determined using three independent macroeconomic variables. The scenarios are weighted using a normal distribution curve and linear regression is applied against predicted values to arrive at a forward multiple.
- The EADs are the future monthly balances on the bond until maturity, which essentially remains the same for non-amortizing bonds. For amortizing bonds, the future balances are net of future principal repayments.
- ECLs are calculated for each month over the remaining life of the bond and discounted using the effective interest rate on the bond.

The forward-looking approach requires a discount to be applied to the remaining cash flows to the net book value of the bond.

Measuring ECL - Intercompany balances

The liquidation method evaluates the ability of the intercompany NPHL to repay its debt in the instance of an immediate recall by NEL.

The following are the key considerations in this ECL methodology for the impairment of NEL's intercompany asset.

NPHL's ability to repay its debt is dependent on the Company's ability to receive sustainable dividend income from PowerGen, its Investment Company. An analysis of the Company's cashflows sees dividends received being materially consumed by principal and interest payments due to its secured debtholders. The PD is therefore 100%.

To settle this debt NPHL would have to sell its 10% investment in PowerGen and in the liquidation hierarchy settle its obligations. Any residual funds after this process will be used to pay NEL. This difference represents the LGD of this financial asset.

Financial Assets - bonds

As at September 30, 2023, all bonds have been categorised in stage 1 on the basis of evaluating the financial performance of the institutions, their credit ratings where available over the past five years and guarantee if applicable by the Government of the Republic of Trinidad and Tobago.

As at September 30, 2022, bonds issued by Home Mortgage Bank, First Citizens Bank and Ansa Merchant Bank Limited have been categorised in stage 1 on the basis of evaluating the financial performance of the institutions and their credit ratings where available over the past five years.

The National Housing Authority's bond has been assessed as having low risk of default (Stage 1) on the basis the bond is fully guaranteed by the Government of the Republic of Trinidad and Tobago.

3.3 Liquidity Risk

Liquidity risk is the risk that arises when the maturity of assets and liabilities does not match. An unmatched position potentially enhances profitability, but can also increase the risk of losses. The Company has procedures with the object of minimising losses such as maintaining sufficient cash and other highly liquid current assets and by having available an adequate amount of committed credit facilities.

(Expressed in Thousands of Trinidad and Tobago Dollars)

3. Financial risk management (continued)

3.4 Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the Company's measurement currency. The Company is exposed to foreign exchange risk arising from various currency exposures primarily with respect to the United States Dollar. The Company's management monitors the exchange rate fluctuations on a continuous basis and acts accordingly.

The carrying amounts expressed in Trinidad and Tobago dollars of the Company's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

	2023	2022	2023	2022
	TT	TT	US	US
Originating currency: United States Dollars				
Financial assets

	\$323,181	\$235,103	\$47,890	\$34,919

Foreign currency sensitivity analysis

The following table details the Company's sensitivity to a 1% per cent increase and decrease in Trinidad and Tobago dollar against the United States dollar. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the reporting date for a 1% per cent change in foreign currency rates.

	2023	2022
Profit and loss impact		
1% increase in translation rate	\$3,239	\$2,355
1% decrease in translation rate	(\$3,225)	\$(2,347)

3.5 Operational risk

Operational risk is the risk derived from deficiencies relating to the Company's information technology and control systems, as well as the risk of human error and natural disasters. The Company's systems are evaluated, maintained and upgraded continuously.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

3. Financial risk management (continued)

3.6 Compliance risk

Compliance risk is the risk of financial loss, including fines and other penalties, which arise from non-compliance with laws and regulations of the state. The risk is limited to a significant extent due to the supervision applied by the Trinidad and Tobago Securities and Exchange Commission, as well as by the monitoring of controls applied by the Company.

3.7 Reputation risk

The risk of loss of reputation arising from the negative publicity relating to the Company's operations (whether true or false) may result in a reduction of its clientele, reduction in revenue and legal cases against the Company. The Company applies procedures to minimize this risk.

4. Critical accounting estimates and judgements

4.1 Critical accounting estimates and assumptions

The preparation of financial statements in accordance with International Financial Reporting Standards requires management to make judgements, estimates and assumptions in the process of applying the Company's accounting policies.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events, that are believed to be reasonable under the circumstances. The Company makes estimates and assumptions concerning the future. However, actual results could differ from those estimates as the resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Changes in accounting estimates are recognised in the statement of comprehensive income in the period in which the estimate is changed, if the change affects that period only, or in the period of the change and future periods if the change affects both current and future periods.

The critical judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements, are as follows:

- i) Whether investments are classified as Fair Value Through Profit or Loss (FVTPL), Fair Value Through Other Comprehensive Income (FVOCI) or Amortised Cost;
- ii) Whether financial liabilities are measured at Fair Value Through Profit or Loss (FVTPL) or Amortised Cost;
- iii) Whether NEL is considered an investment entity in accordance with IFRS 10 Consolidated Financial Statements. This is required for the classification and measurement of the investments in NPHL, NFM and TSTT; and
- iv) Which depreciation method for plant and equipment is used.

All equity financial assets are measured at FVTPL (see Note 6-8).

The key assumptions concerning the future and other key sources of estimation uncertainty at the period end date (requiring management's most difficult, subjective or complex judgements) that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are as follows:

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

4. Critical accounting estimates and judgements (continued)

4.1 Critical accounting estimates and assumptions (continued)

i) Impairment of assets

Management assesses at each period end date whether assets are impaired. An asset is impaired when the carrying value is greater than its recoverable amount and there is objective evidence of impairment. Recoverable amount is the present value of the future cash flows. Provisions are made for the excess of the carrying value over its recoverable amount.

ii) Plant and equipment

Management exercises judgement in determining whether future economic benefits can be derived from expenditures to be capitalised and in estimating the useful lives and residual values of these assets.

iii) Fair Values

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. Management uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at each statement of financial position date. Management uses discounted cash flow analyses for an investment in subsidiary that is not traded in active markets. The assumptions and amounts subject to fair value measurements are shown in Note 22.

4.2 Critical judgements in applying the entity's accounting policies

IFRS 10 consolidation exemption

The Company considers itself an investment entity in accordance with IFRS 10 - Consolidated Financial Statements. IFRS 10 defines an investment entity as an entity that meets the following conditions:

- *Funds are obtained from one or more investors for the purpose of providing those investors with investment management services.*

As stated in the Company's prospectus, the main purpose of the Company is to provide investors with a well-managed investment designed to meet the specific objectives of income and capital growth with some degree of spread of investment risks. NEL was initially incorporated by the Government of the Republic of Trinidad and Tobago for the purpose of divestment of its interest in selected state enterprises to allow these investments to be available on the Trinidad and Tobago Stock Exchange for greater participation by nationals of Trinidad and Tobago in the ownership of state enterprises. NEL manages these investments as part of its strategic portfolio, as well as investments subsequently acquired.

- *It commits to invest solely for returns from capital appreciation, investment income or both; and*

NEL manages both its strategic and non-strategic portfolio for the purpose of increasing shareholder's wealth. The portfolio is managed to ensure the highest level of return is obtained for its shareholders while ensuring that an acceptable level of risk is undertaken.

- *All of its investments are measured at fair value through the profit or loss.*

Refer to notes 2.5 and 2.6 for details

Issued and fully paid		
600,000,641 ordinary shares of no-par value	\$1,736,632	\$1,736,632

16. Translation reserve

This reserve was used to record exchange differences arising from the translation of the functional currency (USD) from investments in joint ventures and associated companies TRINGEN, NGCLNG and NGCNGL to the presentation currency (TTD).

17. Investment remeasurement reserve

The investment revaluation reserve initially arose on the re-measurement of certain available-for-sale financial assets in accordance with IAS 39 prior to the introduction of IFRS 9. On adoption of IFRS 9, the reserve was retained in this account, and subsequent fair value movements were recorded in profit or loss. These assets are currently held by the Company and the reserve will be realised and reclassified if the assets are disposed.

22. Fair value of financial instruments

The fair value of financial assets and liabilities that are traded in active markets are based on quoted market prices or dealer quotations. For all other financial instruments, the Company determines fair values using other valuation techniques.

Fair value measurement

The fair value of investments that are traded in active markets is determined by reference to quoted market prices at the close of business on the reporting date. Where there is no active market, fair values are determined using valuation techniques such as recent arm's length market transactions or reference to current market values of another instrument which is substantially the same; discounted cash flow analysis or other valuation practices.

Valuation models

The Company measures the fair value of financial assets using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

Level 1: Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. The types of assets carried at level 1 fair value are equity and debt securities listed in active markets. The fair value of financial instruments traded in active markets is based on quoted market prices at the statement of financial position date. The quoted market price used for financial assets held by the Company is the current close price.

Level 2: Inputs, other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

22. Fair value of financial instruments (continued)

Fair value measurement (continued)

Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation.

Valuation techniques include net present value and discounted cash flow models, comparison with similar instruments for which observable market prices exist and other valuation models.

Assumptions and inputs used in valuation techniques include inputs used in estimating discount rates, bond and equity prices, foreign currency exchange rates, equity index prices and expected price volatilities and correlations.

Availability of observable market prices and model inputs reduces the need for management's judgement and estimation and also reduce the uncertainty associated with determining fair values. Availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

22.1 Fair value hierarchy

	2023			
	Level 1	Level 2	Level 3	Total
Financial assets				
Investment in subsidiaries	93,792	-	352,026	445,818
Investment on joint ventures and associated companies	-	-	2,156,593	2,156,593

	\$431,656	\$-	\$3,607,184	\$4,038,840

22.2 Valuation technique

The Company's investments are valued using an assessment of the outputs derived from the capitalised maintainable earning, market approach and where appropriate the discounted cashflow models.

Capitalised maintainable earnings approach uses the following factors to estimate the equity value of the investee companies:

- Maintainable Earnings: The maintainable earnings being the normalised level below which, in the normal course of business and all other things being equal, the after-tax profits of the business are not expected to fall in the foreseeable future;
- Capitalisation rate; and
- Surplus assets, liabilities and/or net debt which is added or deducted on the basis that these items do not form part of the Companies' core operations and do not contribute to the generation of maintainable earnings.

Market approach involves the use of comparable publicly traded companies to determine multiples or other financial ratios. Market multiples are ideally derived from trading prices of shares of companies that are (1) engaged in similar lines of business and (2) are actively traded in a free and open market.

National Enterprises Limited

Notes to the Financial Statements

For the year ended September 30, 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

22. Fair value of financial instruments (continued)

22.2 Valuation technique (continued)

Adjustments were made to market multiples for company specific risks with consideration for:

- Relative size of the target operations in relation to the peers;
- The companies are not a publicly listed entity;
- The difference in cost of funding and capital structures;
- The companies' comparatively limited product offering;
- Local market leader position; and
- Receipt of dividends in US dollars.

Discounted cashflow approach is represented by the present value of the Company's forecasted free cash flow over the next five years.

22.3 Fair value sensitivity

Fair value sensitivity is evaluated on changes to unobservable inputs.

Discounted cash flow sensitivity:

	Financial statements at Sept 30, 2023	Fair Value per method at Sept 30, 2023	Sensitivity +1%	%	Sensitivity -1%	%
PanWest	\$143,822	\$144,992	\$134,909	6.95%	\$156,246	(15.82%)
NGCNGL	\$511,073	\$506,413	\$410,661	18.91%	\$475,959	(15.90%)
	Financial statements at Sept 30, 2022	Fair Value per method at Sept 30, 2022	Sensitivity +1%	%	Sensitivity -1%	%
PanWest	\$122,554	\$100,668	\$92,429	(24.58%)	\$111,561	(8.97%)
NGCNGL	\$445,889	\$375,133	\$349,924	(21.52%)	\$408,467	(8.39%)
