

Condensed Financial Statements

Ended December 31, 2023

Chairman's Statement for the Period Ended December 31, 2023

For the first quarter of the financial year ending September 30, 2024, National Enterprises Limited (NEL) recorded a net profit of \$52 Million (2022: \$203 Million). The notable difference in income from the comparative period of the previous financial year is a marked decrease (271%) in dividend income (three-months ended December 31, 2022: \$201.3 Million versus 2023: \$53.8 Million).

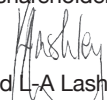

Despite this decline in dividend income, income from investments surpassed

the performance of the previous year's comparative quarter by 83%, increasing from \$2.3 Million in the quarter ended December 31, 2022 to \$4.2 Million in 2023. The increase in NEL's investment income is attributable to the ability of the company to benefit from the current interest rate climate. We expect this to be an important element in targeted strategic investments needed to counter cyclical market fluctuations.

The surging ammonia prices that we experienced in calendar 2022 have given

way to market corrections and persistent volatility in calendar 2023. Consistent with the fluctuations in global commodity prices, dividend income from Trinidad Nitrogen Company Limited (Tringen) reflected a 274% decline from \$200 Million in 2022 to \$52 Million in 2023. NEL's net cash position of \$275 Million has, however, increased 13% from the prior financial year ended September 30, 2023. The favourable cash position is the result of prudent management of prior dividends that exceeded expectations.

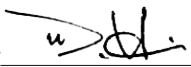

The economic outlook for growth in Trinidad and Tobago for 2024 is cautiously optimistic. Recovery is anticipated to be gradual but broad-based. In the same vein, we expect that the strength and resilience demonstrated by our strategic portfolio and investments will ensure a comprehensive and well-balanced return for our shareholders in this financial year 2024.
